

Accounting in the AI Era

Join Zato for a morning of deep learning

Mixing micro-products, bots, and off-the-shelf AI can disrupt - leaving work fragmented. What's missing is a unified AI vision and strategy.

Your investment in AI needs to solve our industry's biggest challenges - a talent shortage, productivity and responsiveness to client needs.

Tickets \$45 +GST

Coffee & registration

9:30am - 10am

Programme

10am - 12:30pm

The challenge

- Manual work across multiple tools
- A revolving door of incomplete jobs
- Finding the next generation of productivity gains
- Having the space to serve clients better

The dream

- One platform, end to end compliance production
- Humans and AI aligned
- The capacity you always wanted

The prize

- Compilation up to 80% faster

The controls

- Data security and processing
- Human oversight and intervention

Your team

- AI driven versus traditional models
- Alternative team structures
- Closing the capacity gap
- Rebalancing and retraining

Hear from your peers - Open Q & A session

- Gain insights from firms navigating the AI revolution

Ends 12.30pm, followed by a light lunch

The NZ Tour

Join Zato at the official NZ launch & learn:

- How to reclaim 80% of compilation time
- How to consolidate multiple pieces in the accounting puzzle
- The difference between automation and compilation
- What firms are doing to rebalance and retrain their teams ahead of AI
- The opportunity cost of not implementing a clear AI strategy

Spaces limited
